Ravi Kumar

Passionate Web Developer with over 2 years of experience in building dynamic and user-friendly web applications. Skilled in developing innovative solutions, improving website performance and enhancing user engagement. Proficiency at working in collaborative environments and delivering high-quality projects on time.

Work Experience

Junior Project Developer, IT DECODER
Dec 2022 to Feb 2025

- Designed and developed responsive web applications using HTML, CSS, JavaScript, and frameworks like Bootstrap and Tailwind CSS.
- Built and maintained backend services using Python and Flask, integrating APIs and managing data flow between client and server.
- Implemented web scraping solutions to extract, process, and analyze data from various websites for use in applications or internal tools.

Projects

SaaS-Based Resume Builder Web Application

- Tech Stacks - HTML, CSS, Javascript, Tailwind CSS, Flask
- Created a SaaS-based Resume Builder that helps users generate professional resumes with customizable templates and a user-friendly interface.

Custom Web Scraping and Text-to-Speech Web Application

- Tech Stacks - HTML, CSS, JavaScript, Flask, Mechanical Soup, gTTS
- Developed a web application that extracts information from websites and converts text into speech, making content more accessible and interactive.

ToolsVista : Collection of Interactive Web Utilities for Everyday Use

- Tech Stacks - HTML, CSS, JavaScript, Bootstrap
- Developed ToolsVista, a suite of web-based utilities to boost productivity and simplify everyday tasks.
